

Gen. March Announces Demobilization of 1,238,831 Officers and Men to Date

ORDERS WILL DEMOBILIZE 249,000 MEN FROM FRANCE

Demobilization of 1,238,831 men and officers from the army in home camps and abroad was announced by Chief of Staff March today.

Of this number, 74,313 are officers, and 1,164,518 enlisted men.

Orders have been issued to date for the demobilization of 1,231,000 troops in the United States, and 249,000 overseas troops returned to the United States.

March omitted his usual newspaper conference because of the holiday and presented the figures in an official statement.

LACK OF SHIPS DELAYS TRANSPORTATION OF MEN TO U. S., SAYS GEN. HARBORD

PARIS, Feb. 22.—Major General Harbord, commander of the supply service, who is also in charge of this work of sending home the American forces, has given an exclusive statement to the Stars and Stripes regarding the error of exaggerated hopes of a speedy return of the troops from France, according to a special cable to the Baltimore Sun today. The general said:

"The War Department has never said that we should be transporting 300,000 men a month back home at this time, and all talk of that sort is nonsense. Give us the ships and the monthly sailing records will take care of themselves. We can fill the vessels with soldiers, no matter how fast they come. We have received all the shipping we have been promised by the War Department, and sailings have been as heavy as any one who appreciates the present state of the world's shipping should expect."

ADVERTISING WORLD'S LEADING MEDICAL AUTHORITIES

Endorse Value of Such Ingredients as Are Contained in Father John's Medicine

A Wholesome Food Medicine And Body Builder

Free From Alcohol and Dangerous Drugs—60 Years in Use—Guaranteed

The most eminent medical authorities, recognized all over the world as the highest in the science of medicine, have made public statements endorsing the value of such ingredients as we guarantee are the principal ingredients of Father John's Medicine.

High medical authorities say "that these ingredients are beneficial notably in wasting diseases which are curable and those maladies which are connected with or have their origin in colds and debilitating and wasting diseases."

To give these statements in full would take too much space, but we will furnish on application the list of ingredients of Father John's Medicine, the names of the medical authorities referred to, what they say, the publications and the dates of same.

Never wait for a cold to wear off—it wears away the lungs instead. Neglected colds often lead to pneumonia. Father John's Medicine gives prompt relief from colds and throat troubles.

Guaranteed free from alcohol and nerve-debilitating drugs upon which many medicines depend for their temporary effect, and which are dangerous, because they weaken the body and blow the disease to get a deeper hold.

THE JUDGMENT IN THIS CASE, IF ADVERSE TO MR. GREER, MAY ASSIST MATERIALLY IN HAVING HIM INDICTED, ATTORNEY DAVID SAID.

The Greer counsel charged the orphan children, one and all who have said aught against the Greers, with "base ingratitude." He said that "these fat orphans, fed and fattened by Mrs. Greer, have turned to the hand that fed them."

"The day will come," Attorney David prophesied, "when these same fat orphans will go (perhaps) to the Greer back door to beg a bite to eat."

"Mrs. Greer does not want these children back," he said, "but she feels that they should be sent back to Philadelphia to the institution from which they originally came."

Attorney Barse, in rebuttal, called attention to the fact that when Mrs. Greer was on the witness stand in her own behalf, she sought to tell the court what disposition should be made of the children.

"Her remarks were highly improper, and she was placing herself in contempt of court," Attorney Barse declared.

During Attorney Barse's summing up of the case Mr. Greer fanned himself with a copy of The Washington Times containing a story of the investigation.

SOLONS TO FIGHT FOR JOBS FUND

One of the hottest fights of the session is ahead in the House over the action of the Appropriations Committee in lopping off the \$10,000,000 appropriation for the employment service of the Department of Labor at the end of this fiscal year.

Slashing out appropriations for this service, as well as for the food administration, the fuel administration, the capital issues committee, the war trade board, the war labor board, and several other wartime agencies, the committee has stirred up a big controversy. Especially is this the case with respect to the employment service, which has been built up into a large organization in the Department of Labor.

Minority To Fight.

Congressman Sullivan of Massachusetts, one of the members of the Appropriations Committee, who, with Eagan, Evans and McAndrews, made a minority report against cutting out the employment service, said today he would use every effort to get the House to reverse the action of the committee. He declared the continuance of the employment service was especially needed now when the army was being demobilized.

The men who are being discharged from the army have the right to be given the assistance and counsel of a Government agency in getting employment on their return to civil life, said Sullivan. "It is not enough simply to discharge them. We ought to see to it they get jobs. I propose to make the best fight I can to get the \$10,000,000 appropriation deemed necessary for the employment service restored to the bill."

Gallivan declared that the dangers of unrest and Bolshevism would be much lessened by keeping up such effort as that of employment service and doing all possible to prevent unemployment.

To Sound President.

While there will be controversy over the discontinuance of some of the other agencies, the chief one will relate to the employment service. Secretary of Labor Wilson will not only work for the retention of the employment service, but he will endeavor to get the President to take a hand in the matter when he returns.

Controversy in the Senate over the question is expected as well as in the House. The action of the House Appropriations Committee in pruning down and cutting out the appropriations for a number of war agencies is the result of a deep concern among leaders of the committee over the vast and swelling Federal appropriations. They feel that it is absolutely necessary to apply the knife somewhere or the country will wake up soon to the fact that burdensome expenditures have been saddled on it for the next fiscal year, and will resent it.

CHILD WELFARE UNION.

NEW YORK, Feb. 22.—Organization of the National Union of Public Child Welfare Workers was effected here today at the annual conference of the New York State Association of Child Welfare Boards. Miss Sophie Irene Lock, president of the New York city board of child welfare, was chosen president of the national body. Other officers include Miss Marie P. Lockwood, Littleton, N. Y., and Mrs. Ronald P. Gleason, Scranton, Pa.; vice presidents, Miss Frances Day, Jersey City, N. J., secretary, and Miss Evelyn Covin, Philadelphia, treasurer. It was voted to hold a national conference in Washington in March or April, 1920.

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Hairless Oil has been relieving the weakness and disability due to advanced age. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Hairless Oil is in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a swallow of water. The oil stimulates the kidney

action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Hairless Oil Capsules will keep you in health and vigor and prevent a return of the disease.

Do not wait until old age or disease have settled down for good. At the first sign that your kidneys are not working properly, go to your druggist and get a box of GOLD MEDAL Hairless Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.

LAWS TO ENFORCE DRY ACT UNLIKELY

Opposition to laws for enforcement of the nationwide "war prohibition" law probably will prevent their enactment at this session.

Unless some enforcement act is passed before July 1, when prohibition is effective, the country will have a dry law, but no means of enforcing it, Congressional leaders said today.

If the extra session is not called until late in the spring or early summer, it may not be possible to pass the enforcement act in time.

It will then be up to the individual States to enforce the Federal law, members of Congress said.

NO REFERENDUM ON PROHIBITION POSSIBLE, DECLARE DRY LEADERS

Prohibition leaders today declared there is not a chance of a referendum on the dry amendment which would be applicable to the ratifications by the various legislatures, said Wayne R. Wheeler, general counsel of the Anti-Saloon League, and we have several court decisions to back the stand. The legislature can only accept or reject the amendment, just as nominations from the governor are accepted.

"Even if a referendum could be obtained, it is doubtful if the vote could carry the ten States necessary to defeat ratification."

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Brand Tea at any pharmacy. Take a tablespoonful of this Hamburg tea, put a cup of boiling water upon it, and drink it at once. It is a most effective way to break a cold and get grip, as it opens the pores, relieves congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.

D. C. SYNAGOGUE DENOUNCES REDS

Opposition to Bolshevism was pledged at a meeting of the Washington Hebrew Congregation in the Eighth Street Synagogue last night.

"We believe in the Government and therefore oppose a movement against the Government through an effort to cause discontent such as the Bolsheviki are making," said Rabbi Abram Simon.

"Labor has risen to a position of dignity and power, and can obtain that for which it is working without resorting to anarchy and Bolshevism."

The following resolution condemning Bolshevism unanimously was adopted:

"The members of the Washington Hebrew Congregation, viewing with alarm the spread of insidious and revolutionary doctrines which are subversive of the best interests of our country, do hereby solemnly resolve and pledge their united energy as Americans in nationality and as Jews in religion not only to condemn, but also to use their efforts to aid in the stamping out of every movement which sows the seeds of distrust and discontent among the masses, endeavors to intensify class hatred, and seeks to undermine our ordered form of democracy by the propaganda of a revolutionary and destructive philosophy, whether it be known as communism, anarchy or Bolshevism."

A fund of \$2,000 was pledged to be used for a centennial anniversary memorial in honor of Isaac M. Wise, founder of the American Hebrew Congregations.

COMMITTEE NAMED ON WOMEN'S WAGES

The conference committee which will meet next week to determine a minimum wage for women employed in the printing and publishing trades in the District, is today complete. The members to represent the public were appointed yesterday by the Minimum Wage Board.

Judge William Hitz, of the Juvenile Court; Mrs. Frances Axtell, of the Federal Employees' Compensation Commission; and Dr. John Ryan, professor of economics at Catholic University, will represent the public on the committee.

Frank B. Crane, Frank Hill, and Leo Baumgartner will represent the employers, and the employees' interests will be assumed by Mrs. Nettie Kirchner, Miss Nellie Sheiry, and Miss Esie Reed. Miss Ethel Smith, a member of the Minimum Wage Board, will sit with the conferees as the official representative of that body.

The conference is expected to summon witnesses, request books, and take testimony relative to conditions under which the women employ labor, and upon their findings make a definite recommendation to the commission, fixing a minimum wage for the industry.

'MADE IN AMERICA' SHOWS U. S. REPLY

America's answer to Germany's sneers in April, 1917, was literally depicted at the official presentation of "Made in America," a War Department film of the national army in the making at Camp Meade's Knickerbocker Theater yesterday afternoon.

The modern "Liberty Boy" is shown from the day his number is drawn in the draft until he takes the firing line in France. Most of the camp scenes are shown at Camp Meade.

The story: John Evers, the older brother, is drafted first and wins the medal of honor and a commission before Jim, the younger, arrives in France. Joe Nelson, who resents the draft, submits because he has to, but declines to be cheerful about it, finally gets interested through the camp activities, physical benefits and good fellowship of the camp.

DAVID SAYS GREER INVITES INDICTMENT

tion that they are guilty of crimes of a very depraved character."

George F. Barse, assistant corporation counsel, wanted to submit the case to the court without argument, but the Greer counsel objected.

In summing up the District's case, Attorney Barse directed most of his remarks to testimony offered by witnesses for the Greers, because he explained "witnesses of the respondents themselves offered evidence sustaining all the allegations of the District."

Counsel for the Greers charged witnesses for the District with being "incapable of telling the truth." A charge of perjury was made against one District witness.
